Profile

Software Developer with experience as a IDF programmer and additional projects in Web development, applied AI, and real-time simulation systems. Hands-on experience in full-stack development, GenAI agents, and simulators that were deployed and used in ongoing Navy training processes. Strong Python and React skills, fast learner, with solid software engineering foundations.
Currently a Computer Science student at Ben-Gurion University (4th semester), specializing in Data Science.

Professional Experience

Freelance Web & AI Developer
2023 – Present

- Designed and built production-grade web systems using React, Node.js, and WordPress
- Led projects end-to-end, including requirements, development, deployment, and maintenance
- Developed a GenAI-based sales assistant using LangGraph
- Integrated LLM APIs and built a React dashboard for monitoring and process optimization

---

Software Developer – Israeli Navy, IDF
2020 – 2023

- Developed Unity3D / C# simulators used annually to train hundreds of naval and submarine cadets
- Built scenario-based simulation and scoring engines
- Replaced an external vendor solution, saving approx. ₪500,000 per year, and received formal recognition

---

Technical Skills

Programming Languages: Python, JavaScript / TypeScript, C#, Java
Web: React, WordPress, HTML, CSS, GitHub, Netlify
AI / Backend: LangGraph, LLM APIs (Claude, OpenAI), Node.js, MongoDB
Tools & Platforms: Git, CI/CD (GitHub Actions), Unity, WooCommerce, Meta Ads
Academic Topics: Multi-Threading Design, Reactor Pattern, Network Architecture, SQL, C++

Education & Training

B.Sc. Student in Software Engineering
Ben-Gurion University | 2024–2027 (expected)
Data Structures – 98, Introduction to Computer Science – 92, System Programming (SPL) – 87, Probability – 93

School of Computer Science – Tikshuv (תקשוב) Corps , IDF
2020 | Web Development, Unity, and Design Tools

Israeli Navy Training Program – Fast Lane
2022 | Microsoft AZ-104 – Azure Administrator

The Hebrew Reali School, Haifa
2015–2019 | Majors in Computer Science and Physics
